July 2022 Update

Calls for Service:

Medicals – 22
Building Fires – 2
Cooking fires/Smoke – 1
Motor Vehicle Accidents - 2
Vehicle Fires – 1
Fire Alarms – 2
Hazmat/Fuel Spills – 1

Total calls – 31 calls for service in July

Training:

The RFD had monthly training on vertical ventilation, saws, forcible entry, cutting garage doors, various fire ground tools/equipment, ladders. This training was conducted at an acquired structure that the property owner made available to RFD prior to demolition. This allowed members to cut a roof and cover vertical ventilation skills and cut garage doors for access needed at garage fires.

RESA:

The members will look at feasibility of doing a drive thru meal in the future.

Other News

The Washington County Mutual Aid Association meeting was held at Washington FD on 7/26. The meeting had representation of Chief's from all Wash Co. FD's. The meeting covered items related to communication and mutual aid response. The group also covered response to battery powered vehicles and other battery-operated equipment. The council received a quarterly report from Chief Smothers on 7/5. We continue to work on moving RFD forward for the future with providing the best service possible that the citizens expect. That requires us to upgrade equipment, increase our level of care and have more consistent staffing model to cover all calls. This at times seems to not make progress due to things being held up by council. If anyone has questions you know how to reach the RFD command staff. I look forward to working through things and providing our community with the service they deserve and expect. RFD again this month had calls we could not cover or had no EMS personnel available. This resulted in delayed care and 2 of these incidents ended up being CPR in progress, unfortunately these 2 individuals did not make it after WCA treated them.

We do have 4 members getting ready to take an EMT class and with the addition of Drake Hotz this will help our response.

Serving Proudly

Thanks

Chief Smothers

O & M Report: July 2022

Water Operation & Maintenance

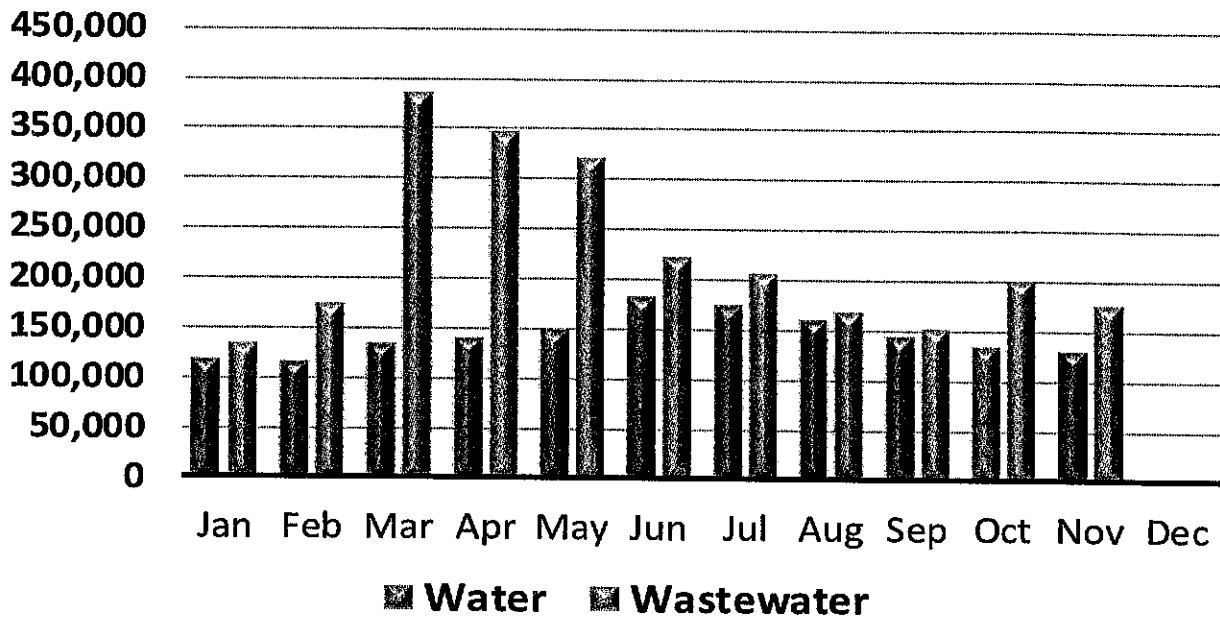

- There were a few water lines hit on 3rd street project as well as a corporation valve on the water main. Two of these hits required localized bacteria testing boil advisories that were lifted after a couple of days.
- The annual TTHM and HAA5 samples were taken, and they were extremely low. This is telling us we are getting good circulation and turnover in the distribution system.
- We spent a fair amount of time this month trying to locate the Star Trek Museums water line but eventually did and added it to our GIS maps.
- We had to distribute a couple water meters to a few new construction houses.
- Well #7 was eventually put back online this past month as we discussed in our last report. It turns out Cahoy had it wired backwards on the initial install back in January. We expressed to Cahoy several times we suspected that would be the case but didn't want to rewire it ourselves since it was still under warranty. We hope having this will extend the cleaning cycles of the RO units and cartridge filters.
- We changed out both the cartridge and bag filters last month.
- We repaired a couple elbows and tightened a some flanges in the PVC piping in the plant. |

Wastewater Operation & Maintenance

- We had some issues with the Raw water sump that provides water to our composite sampler so we made this a manual process until we get the programming fixed. |
